
FUNDING OUTLINE

In a simplification of the formula for schools funding, all schools receive a contribution towards NQT induction processes.

Schools should continue to make NQT provision in their schools' budgets for the following:-

- 10% (half day per week) release time over and above that which is offered to an NQT's colleagues. In addition, all NQTs will also be entitled to their PPA time;
- release of a mentor to have assessment and progress meetings with the NQT;
- where colleagues observe the NQT – release time for that colleague;
- the NQT receiving development in order to achieve their improvement targets (identified by the NQT and their mentor and with reference to their Career Entry Development Profile);
- Local Authority Support Package for Primary NQTs (purchased through Professional Learning Community programme) <http://www.southglos.gov.uk/cyp-plc>
- Secondary 'New to' Networks and conference (purchased through Professional Learning Community programme)
